Para bordar em ponto cruz, você pode usar agulhas sem ponta números 24 ou 26. Quanto maior o número, mais grossa será a agulha. Não utilize uma agulha grossa para tecidos de tramas pequenas

Suas peças de cara nova

Eu sou suspeita para falar, mas você também não acha que, se uma peça tiver um detalhe bordado em ponto cruz, ela até "respira", de tão viva que fica? Por isso, cada nova edição de **1001 Idéias Ponto Cruz** é, para mim, um baú cheio de surpresas: basta você abrir para ser fisgada por um desenho mais bonito que o outro. São barrados de todos os tipos, flores de todas as cores e bichinhos para todos os gostos que vão levar muita delicadeza ao seu trabalho e deixá-lo uma verdadeira obra-prima. E que tal bordar motivos especiais de cozinha nos seus panos de prato, ou fazer uma linda toalha com os desenhos de festa para enfeitar a mesa daquele aniversário em família? Espero que você goste e se divirta com nossas sugestões. Bom trabalho e até mais!

Ponto Cruz prático

Se você está começando a bordar, siga as dicas abaixo para não errar.

Material indispensável

Tecido - Para fazer qualquer trabalho em ponto cruz, você vai precisar de tecido étamine ou peças já com faixas próprias para bordar. Dependendo do trabalho que escolher, você também poderá utilizar cânhamo, linho e telas para tapeçaria.

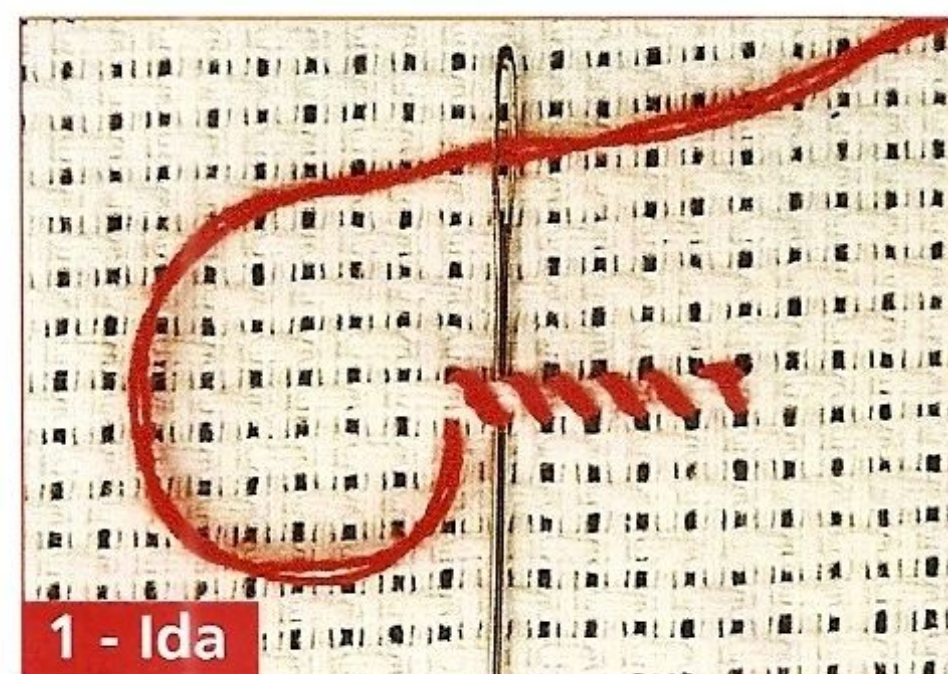

Linhas - As linhas para fazer o ponto cruz são vendidas em meadas. Cada meada é composta por 6 fios, para separá-los é só puxar uma das pontas com cuidado e dar uma batidinha para soltar.

Agulhas - As agulhas de número 24 e 26 são as mais indicadas para o ponto cruz, pois são pequenas e sem ponta. Esse tipo de agulha não machuca os dedos e também não perfura demais o tecido.

Tesouras - Você vai precisar de uma tesoura de ponta fina, para cortar as linhas, e outra de costura, para o tecido.

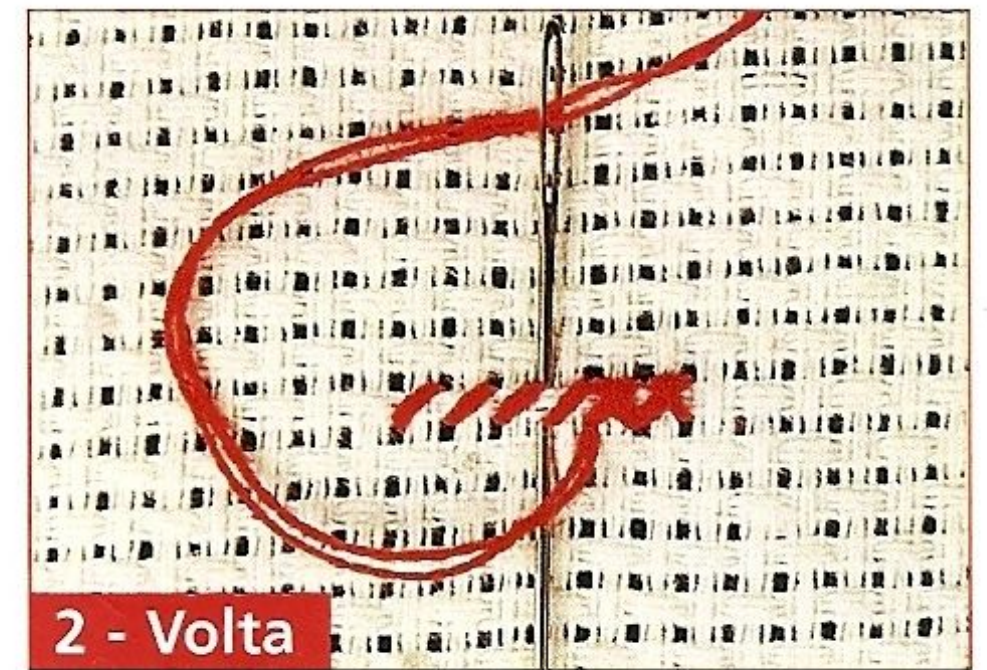

Bastidor - Essa peça de madeira ou plástico pode ser usada para prender o tecido, mantendo-o esticado enquanto você executa o bordado.

O ponto cruz básico

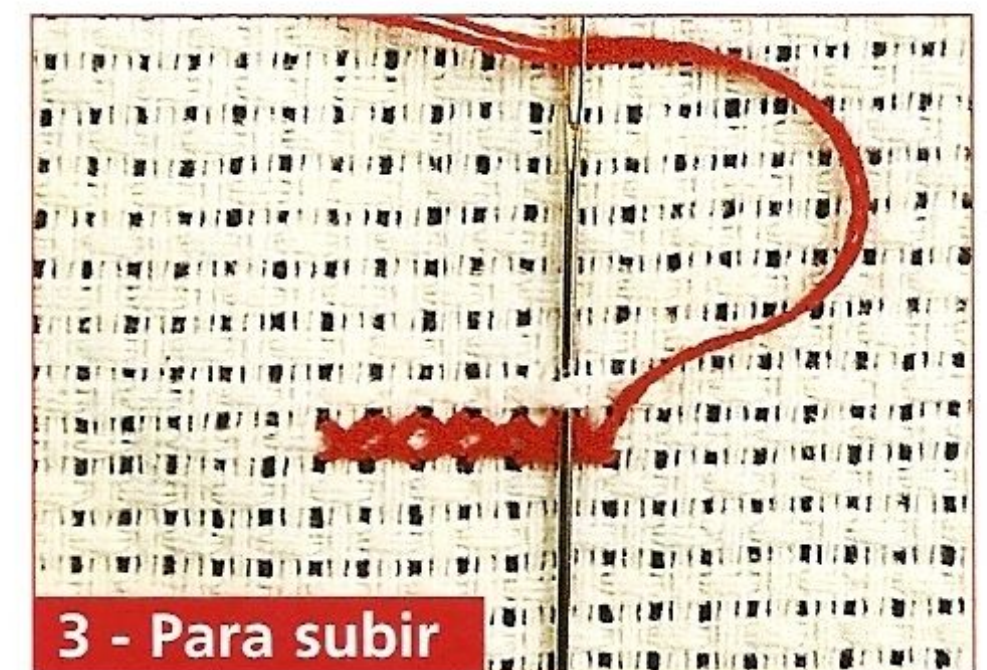

1 - Ida

do, passe a agulha por baixo de dois fios da trama da étamine e, em seguida, por dentro da argolinha da linha, dando um nó. Agora que a linha está presa, transfira a agulha para o direito. Vá introduzindo a agulha nos buraquinhos, da direita para a esquerda, sempre trabalhando com a agulha de cima para baixo.

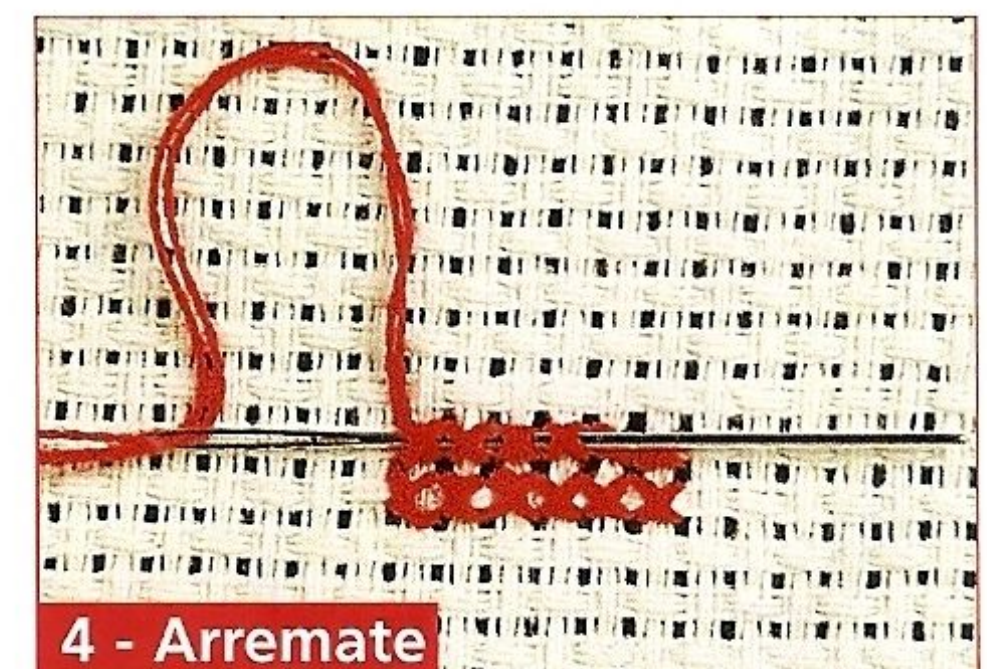

2 - Volta

Seguindo o mesmo procedimento da carreira anterior, volte completando os pontos (formando o X), no sentido contrário ao da carreira de ida.

3 - Para subir

Quando bordar o último ponto, suba para a carreira superior, passando a agulha de cima para baixo e sempre da direita para a esquerda. Volte bordando no sentido contrário, formando o ponto cruz.

4 - Arremate

Quando terminar de bordar ou precisar trocar a linha, passe a agulha por baixo dos 3 ou 4 últimos pontos executados anteriormente e corte a linha bem rente.
